

Purple Face Carding Bitcoin christmas 2024.

My dear Carders/Fellows,

As always I never let you down and new guides are regularly updated,

regarding the latest updates :

XMR Carding : Under update

ETH Carding : Under update

In the meantime here is a new unseen strong and easy carding method !

This BTC carding works worldwide as all my others, and You'll love it.

Note : This method is 100% working and I'll include enough proofs of it in this guide.

As always let's talk about our method's requirements first :

- Computer / Smartphone (Computer Recommended)
- Simcard issued in any country (or VOIP Number)
- Fullz with BIN (will disclose soon)
- RDP with Same City Proxy

Quick focus on the tools needed for your cashouts with this method :

- SIM card : SIM card issued in any country means any country in the world, means :

I hope it's clear for you, even if you will use CCs issued in USA you can use sim card issued in Europe or Africa or South America or Asia or Russia etc.. etc..

- Computer : You can also use a smartphone if you prefer. Regarding your smartphone, You can use an Android phone or an IOS one. As you prefer.
- RDP with Same City Proxy : This means that you must avoid free VPNs / Proxies etc, You should buy Solid User Agent RDPs matching the holder with Socks5 Proxy of same city (I'll mention resources at the end of guide)

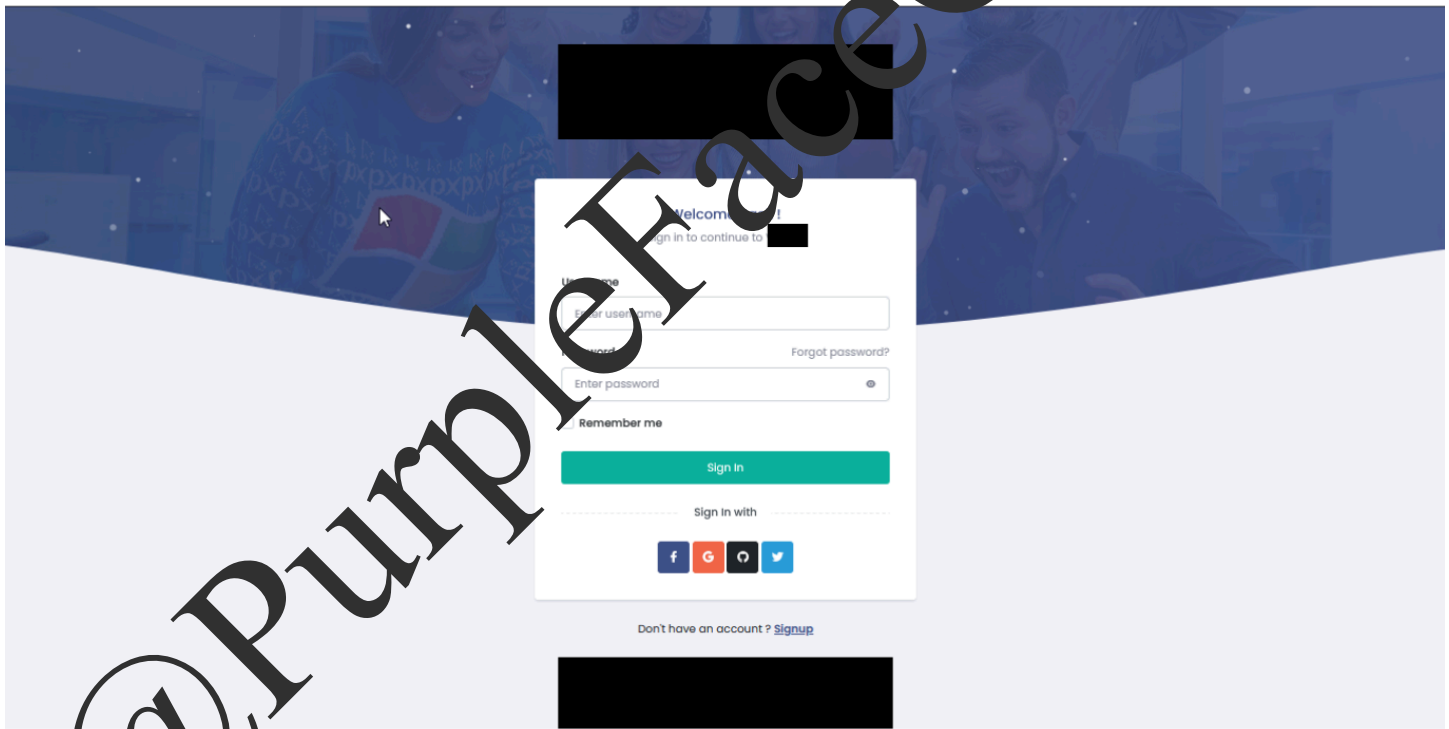

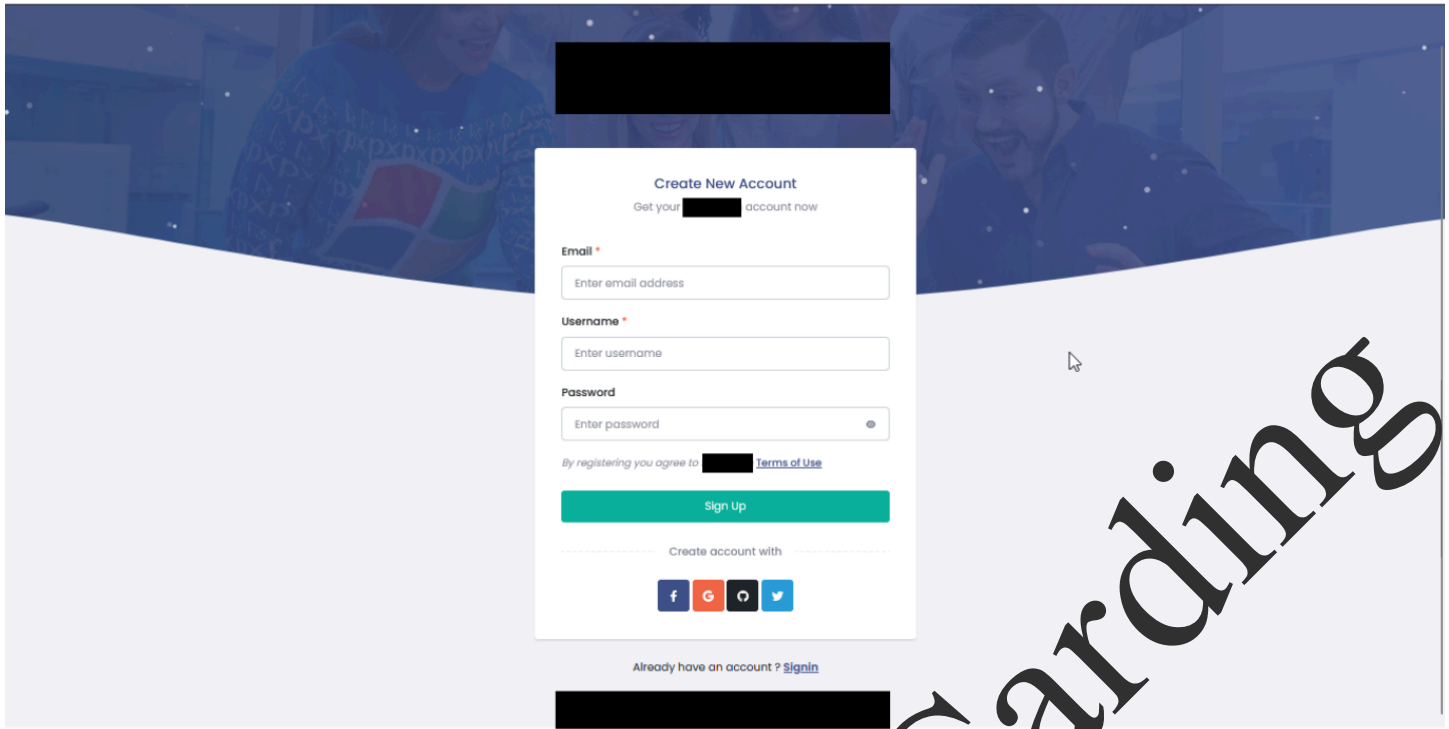

Note : From this platform you can buy BTC from Stolen Credit / Debit Cards and Transfer the bought crypto to Bank.

THAT'S IT, ONCE YOU HAVE YOUR MATERIAL READY YOU CAN START
THE NEXT STEP =>

NEW CHRISTMAS 2024 GUIDE => CARDING \$1000 OF BTC IN 1 DAY

IMPORTANT NOTICE (MUST READ)

As you all know We do hardwork in creating methods and Thousands of leechers without even giving us credit just copy our methods, Share on their own Forums and Sites and Do fraud with newbies and even with some experienced guys. So from now on Our Methods are exclusive to only Premium Customers (This way our methods will LIVE longer and will not get patched too early). Now Let's proceed with the proofs of this christmas gift : (●'∪'●)
